

WE ARE HIRING!

Linux Administrator

Are you an experienced Linux Administrator looking for an opportunity to advance your career? If you are able to maintain positive attitude even when everything goes wrong, if you are detail oriented and self-motivated with a passion to learn and improve your skills and knowledge, we have a perfect job for you! We are looking for a Linux Administrator who will be responsible for designing, implementing, and monitoring the infrastructure.

Job requirements

- Installing and configuring software and hardware
- Proactively maintain and develop all Linux infrastructure
- Engineering of systems administration-related solutions for various project and operational needs
- Troubleshooting issues and outages
- Proactively monitoring system performance and capacity planning

Ideal candidate possesses

- Degree in Computer Science, Information Systems Management, or related field
- 3+ years of experience in managing Linux based infrastructure (RedHat and CentOS)
- Knowledge and hands-on experience of implementing, troubleshooting, and supporting the Linux/Unix
- Experience with Docker, Kubernetes

What we offer

- We are the bank that strives for excellence. We value substance over the form and open communication over the hierarchy, where everyone is encouraged to make an impact.
- We are the Bank where you can come to work using our bike, and where we work in a smart office.
- We are the bank that wants you to spend your birthday out of the office, and bring your family to your workplace.
