Extremely competitive conditions for the purchase of new agricultural machinery

UniCredit Leasing Serbia prepared special terms for the purchase of new agricultural machinery of prestigious brand JCB, which, in the domestic market, is represented by Masferg Agro Equipment Ltd. from Novi Sad. Namely, with fixed nominal interest rate of only 1.39% per annum and repayment period of 24 months, all legal entities and farmers have the opportunity to purchase the necessary equipment and thus significantly improve their production capacities. UniCredit Leasing's offer, valid until June 30th 2016, is specially prepared for 83rd International Agricultural Fair.

JCB machines have proved to be extremely reliable and durable, characterized by a robust construction, quality design and exceptional maneuverability. In addition, one of the most relevant characteristics, which is why the majority of clients opt for these machines is a very low fuel consumption. Confirmation of the high quality of these machines is reflected in the five-year warranty, which JCB provides for all Agri models. As an additional benefit, JCB machines are equipped with LIVE LINK system, which enables user to monitor in real time the machine via smartphone, tablet devices or laptops. This is an feature that only JCB offers on the market.

If the client decides to purchase telescopic manipulators whose gross value amounts EUR 50,000, the minimum down payment would amount circa EUR 16,666.67, while with a fixed nominal interest rate of 1.39% per annum and financing period up to 2 years, monthly installment would amount circa EUR 8,478.

In addition, for taxpayers, UniCredit Leasing provided the possibility of financing VAT up to 90 days.
