If, after the expiry of 60 days from the date of the transaction made by using the card, no change is recorded in the account of the Cardholder, or the change is not recorded in the Statement, the Cardholder shall, without delay, notify the Bank. The Bank shall ensure the refund of the amount or a correct execution of the payment transaction if the Cardholder has notified the Bank about the unauthorised, failed, or incorrect execution of the payment transaction and/or has requested the correct execution of the payment transaction, immediately after becoming aware of such payment transaction, provided that he has delivered such notification and/or request within 13 months after the debit date.
5. The Cardholder agrees and authorises the Bank to collect the outstanding liabilities incurred by operations with cards also from other accounts that the Cardholder has opened at the Bank.
6. The Bank shall not be liable for damage caused by circumstances that it cannot influence (power failure, failure of ATMs, omissions and/or inaction by other banks, payment institutions and retailers, etc.).
7. The Cardholder is aware and accepts that the use of cards for payment by electronic means (Internet, MO/TO (mail order and telephone order) transactions, etc.) carries the risk of abuse that exists when communicating the card number and other personal data through the public network and all financial consequences caused by such abuse shall be borne by the Cardholder.
8. Before the execution of a transaction on the Internet the Cardholder must become aware whether the merchant through which he makes an online transaction has registered POS in the country or abroad, and based on such knowledge to become aware whether the underlying transaction will be delivered to the Bank as an international or domestic transaction. The Bank

will not bear any expenses, exchange loses, nor have any liability for transactions executed on the Internet, on POS terminals that are in the system outside Serbia, for which the Cardholder has not obtained all the necessary information before the execution of the transaction which caused disagreement of amounts presented to the Cardholder at the execution of the transaction and the posted transaction amount. All information on the transaction performed by the cardholder with a card issued by the Bank, presented by the merchant during its realization, especially information on the transaction currency, applied conversion rate, etc., as well as information on the conditions under which the merchant provides the service, are not binding for the Bank, nor can the Bank have them available and as such present them to the cardholder in advance.

Upon receiving the debit order from the payee's payment service provider, the Bank will book the transaction, i.e. debit the account/accounts linked to the card and cancel the reservation.

When conducting payment transactions using a card, cardholders should bear in mind that specific scenario that might appear in Card Business, i.e. certain situations where the authorized amount and the final amount of transaction delivered to the Bank in the form of debit, may differ significantly, which may impose that bookings for authorized transactions are not automatically released, i.e. annulled. Such situations may occur in the following circumstances:

- When booking hotel and hotel accommodation, additional services are often added to the final amount, and this is the reason why authorized transaction is higher than final amount
- Rent-a-Car agencies can additionally charge fuel costs, vehicle damage, traffic violations, thereby changing the amount of the final charge and the authorized amount
- Automatic petrol stations operate in such a way that transactions are authorized for a certain amount, whereas subsequently the actual amount due to consumption, is sent to the Issuing bank
- The purchase of airline tickets, in a situation where the customer buys more than one ticket, is most often processed by the merchant in several individual transactions, for each ticket separately, while the authorization is made in total amount.

In case when Bank does not cancel the reservation on above described manner, System will release the reservation, after the expiration of deadline set by the international standards for Card operations as the deadline for delivery of debits on performed transactions by payment service providers of the payee or merchants. The stated deadlines depend on the place where the transaction was concluded, so for ATM transactions it is 5 working days, for POS terminal it is 7 working days, but they can also depend on the type of merchant, so in the case of Rent a car Agency, it is 30 days. Authorization has been systematically released after a predefined deadline, and cardholder is obliged to monitor debit of his/her account and to provide sufficient funds in order to enable settlement of the card payment transaction, in case that the reservation is released without prior charge for the specific payment transaction. If cardholder recognizes that reservation has been released without debit the account due to the transaction made or the debit was posted without releasing the reserved funds, it is necessary to contact Bank immediately in order that bank execute necessary checks and availability of funds at cardholder account and aligned it with actual status. When performing payment transactions by card, cardholder should also bear in mind that, the date of debit of account may differ from the date when the payment transaction was concluded.

VIII. REPAYMENT MODELS AND ORDER OF CLOSING THE OBLIGATION

1. The cardholder is required to settle his obligations to the Bank regularly, on a monthly basis unless otherwise specified.
2. The Bank shall submit to the cardholder once a month a Statement on new obligations (hereinafter referred to as: Statement) to notify the Cardholder of all transactions and fees resulting from the use of primary and/or additional card in the country and abroad for the previous month, the amount of current taxes for accounting period, the minimum amount to be paid, the amount of instalments (if the purchase model in instalments with MasterCard and DinaCard cards for individuals is used) as well as the maturity of monthly liabilities.
3. The models of repayment of debt on the cards:
 - i. Revolving model for individuals and entrepreneurs:
 - "The minimum amount for payment" - a mandatory part of the payment. If the Cardholder provides on his account for repayment the minimum payment amount or an amount greater than the minimum amount to be paid, and less than the current debt within that period, the interest will be calculate for each transaction from the previous month from the day of processing until the last day of the month, as well as interest on the debt at the beginning of the month to which the statement relates, reduced for eventual payment until the last day of the relevant accounting period. For each day of default in repayment of outstanding liabilities, default interest will be accrued.
 - "Current debt" - if the amount of the Current debt is settled by maturity date specified in a statement, the interest is not charged, whereby the Bank gives the Cardholder the possibility of a grace period.
 - ii. Instalment purchase (model for individuals) - if the amount of the due instalments is settled by the maturity date specified in the statement, the contracted interest is not charged. After due date, unpaid portion of due instalment is treated as revolving balance to which contractually agreed interest is applied. .

- iii. Charge model for entrepreneurs:
 - "The current debt" equals total debt during the accounting period, which is due in full. For each day of delay in repayment, contracted interest shall be calculated.
4. Schedule of closing the obligations:
 - i. Due liabilities (first revolving debt, then debt divided into instalments)
 - ii. Outstanding liabilities (first revolving debt, then debt divided into instalments)
5. All payments made during the month in the amount that is higher than the "Current debt" stated in the last Statement, the closing of the obligations shall be performed in the order specified in the previous paragraph. In these situations, depending on the amount of the payment, it may also lead to the closing of liabilities of undue installments, for transactions that user previously divided on rates. In that case repayment period can be reduced, such as a reduction in the number of remaining installments, since the closure of debt is made starting from the installments that comes last, and will be reflected in the closing of undue liabilities on the basis of installments at the moment when the total liability for undue installments is less than or equal to the amount of higher amount paid. The payment of a larger amount from the amount of the due obligation that is shown on the statement that the Bank delivers to the user on a monthly basis, represents the personal determination of the Cardholder and the Bank will book the payment in order to close the obligations in a way determined by these Special Conditions and which as such can not produce any liability on the part of the Bank.
6. All authorization transactions that are credited to the Card repayment account, regardless of whether they are initiated by the Cardholder or the merchant on the basis of a business relationship with the Cardholder, are treated as card repayments, used to close obligations in the order specified in these Special Terms and cannot annul previously used repayment models for which the Cardholder has opted (for example - payment of funds by the merchant for the return of funds for a previously executed transaction previously divided by the user in installments cannot be used to close a specific transaction or cancel installments, but the funds can only be used to close card liabilities according to the debt structure at that time)
7. Cardholder agrees that the Bank will deliver monthly card statements via a channel of communication which client selected. In case that Cardholder didn't received the Statement until the 15th of the month, and last month he used the card or have some obligation from previous period, Cardholder is obliged to immediately notify the Bank.
8. The cardholder can at any moment prematurely repay total debt free of charge and address the Bank with the request to terminate the Contract and close the card, so that the Contract in question shall cease to produce legal effect. Repayment of the credit limit in use, in full, without submitting a request to close the card, cannot be considered as termination of the Contract, nor does it imply that the Contract ceases to produce legal effect.
